### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-2, 4-5, 7-8, 10-11, 13-14, 17-20, and 25-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended independent claims 1 and 4 to include the recitation "maintaining the cigarette rod in one location relative to said <u>means for rotating</u>", and claims 7 and 10 to include "maintaining the cigarette rod in one location relative to the <u>transfer drum and the cooperating laser cam</u>". However, the Examiner finds no clear support in the instant written specification, specifically paragraph 0020, for such amendment. While there appears to be disclosure stating that "each rod is rotated and maintained in one location relative to the <u>overall tipping machine</u>" (even though it is not clear what this means), and that "the rod is maintained in a fixed location relative to the <u>applicator system</u>" (although it is not clear if this "system" has been sufficiently defined in the specification), this is not deemed, by the Examiner, to be sufficient support to

recite that which Applicant has recited, via amendment, in the independent claims mentioned above.

## Allowable Subject Matter

3. Claims 15-16, and 21-24 are allowed.

#### Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
